How do you display your Certificate of Disinfection? Are your cleaning efforts important to your staff and customers?

PG. 2

Local restoration project makes a big impact for League City couple.

PG. 3

New location in League City.
Flooring Showroom coming soon...

DISINFECTION DIRECTION

“their disinfecting application is thorough and professional - reaching areas my staff can’t get to.”

Thank you to our customers for displaying their Certificates of Disinfection proudly. We partner with businesses who need to show their staff and customers proof of their cleaning and disinfection efforts. As part of our disinfection program, we provide a certificate for the front door and options for inside of the facility at tables or POS.

As the CDC provides more direction on how to clean and disinfect workplaces, we use their guidance to work with customers. We also partner with customers to follow their sustainability guidelines by using Benefect, an environmentally friendly product. For more on Benefect and its safety, go to benefect.com (look for Decon30).

Restoration Magic

RESTORATION IN HISTORIC DISTRICT OF LEAGUE CITY

We remodeled a lovely home tucked into the oak tree lined historic district of League City, Texas. The home was owned by a couple who had damage caused by a vehicle crashing into it. The most extensive damage was done closest to the kitchen.

After talking extensively with the owners, we learned that they felt the home was largely outdated. Considering the new damage and the age of the home, they felt a full remodel would be needed.

We began our work on scoping out the project and creating milestones for the owners to review along the way. The original layout needed to be broken up and, specifically, the kitchen was very compact. The layout was not ideal and provided little countertop space to work.

With some brainstorming and taking down a partial wall, we were able to transform the kitchen to a beautifully updated area. It now has ample countertop working space both for cooking and entertaining. The rebuild even allowed for incorporating a peninsula for storage and additional seating.

CONFIDENT CLEAN

“I trust them to get it done right the first time.”

We are excited to announce that we've grown into a new location in League City, TX and will be adding flooring showrooms to both the Colorado and Texas locations. We continue to serve locations in LA, CO, AR, MS, WY, NM, AZ and all of Texas with more expansion coming soon. Our services include both residential and commercial with specialties in disaster restoration, disinfecting and cleaning. Once the flooring showroom is completed, we'll open it up to the public with a Grand Opening event. You'll be thrilled with the selection from top names such as Bruce, Mohawk, Prestige by bpi and AxisCor.

While we service hundreds of restaurants across the country, we are more than a Confident Clean partner. We offer full turnkey restoration services from mitigation to damage repair including remodel. Think of us for your restoration and cleaning needs. Follow us on FaceBook, Twitter and get more info on our webpage, www.erc-services.com.
