ABOUT SEGMENTED SYSTEMS MFG.

Segmented Systems Manufacturing is an integral part of a Wisconsin based furniture manufacturer that has been supplying the contract furniture industry for nearly 30 years. Segmented Systems Mfg. was created to provide high quality commercial office furniture to our dealerships' clientele who demand stylish and flexible furniture without the premium price tag. We take pride in our ability to provide effective solutions and to create positive change in the commercial office furniture industry.

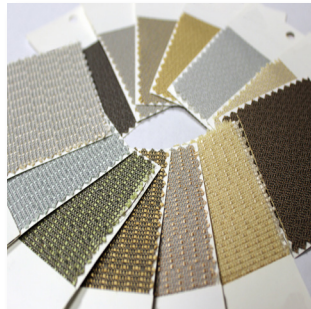

Furniture Specifications- Choose to specify Segmented Systems and we will provide space planning, CAD drawings, pricing, finish specifications, and presentation.

Rendering Capabilities- Our team of professional designers use advanced 3D modeling software to create photo-realistic renderings and 3D walk-throughs. This allows for the end user to see what their space will look like with their branding and finish selection.

CUSTOM FURNITURE DESIGN AND FABRICATION

CREATE A WORKSTATION USING ANY OF THE 310 POSSIBLE SEGMENTED COMBINATIONS

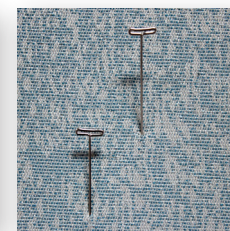

How It Works...

Up to 5 different segments can be used to create a panel. Pick your choice of finish for each side of each segment from the following list:

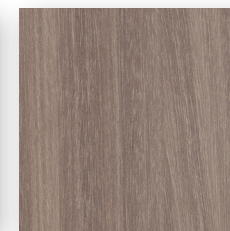

- Non-Tackable Fabric
- Tackable Fabric
- Laminate
- Markerboard
- Acrylic Glass (Clear or Frosted)

Non-Tackable Fabric

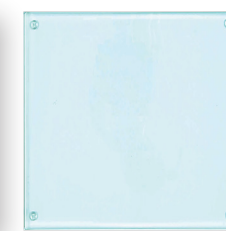

Tackable Fabric

Laminate

Markerboard

Glazed (Clear)

Glazed (Frosted)

Visit our website www.SegmentedSystemsMfg.com or see our Work Place Essentials Price Book for more information.

Work with our experienced designers to create custom workstations that fit your company culture and branding.

SEGMENTED WORKSTATIONS

Segmented panels offer a whole new world of aesthetics and functionality. Customize the panels to incorporate the tools you need for your work flow.

Here's a quick list of options to consider:

- Tackable segments
- Magnetic & non-magnetic markerboards
- Tool rails
- Laminate segments
- LED task lighting

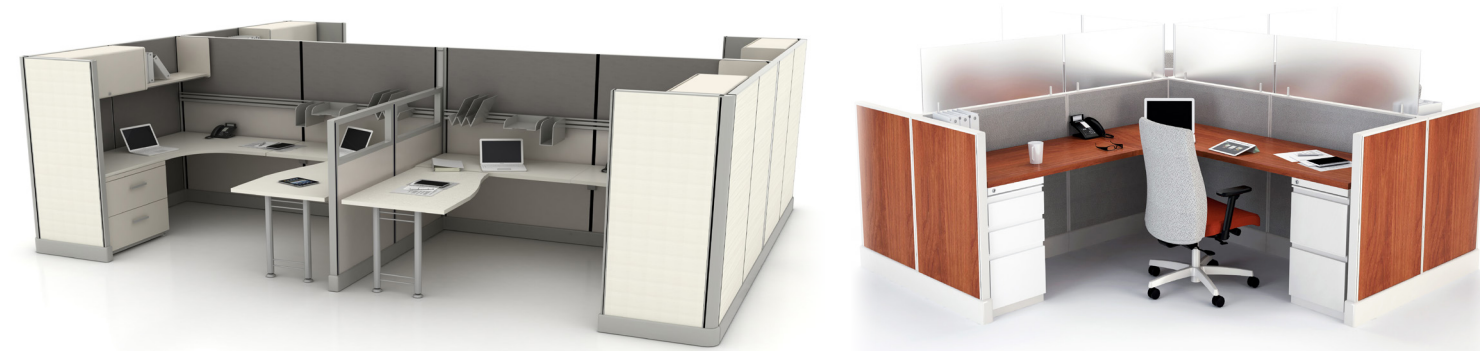

Our Monolithic solution is both sleek and professional.

Ideal for a range of applications, from executive workspaces, to open plan team environments.

Available in a variety of design configurations. Combine Monolithic panels and Segmented panels to create a workspace that combines the best of both worlds!

MONOLITHIC WORKSTATIONS

CONFERENCE & TRAINING TABLES

CONFERENCE TABLES

Choose from a variety of our conference tables or work with our team to create a unique one tailored to your needs. Any conference table, large or small, for 4 people or 24 people, we can satisfy your order.

TRAINING TABLES

Choose from many of our standard or custom shapes and sizes to best suit the needs of your team. With our selection of table bases and the ability to add data ports and flip top mechanisms you can have the perfect training environment.

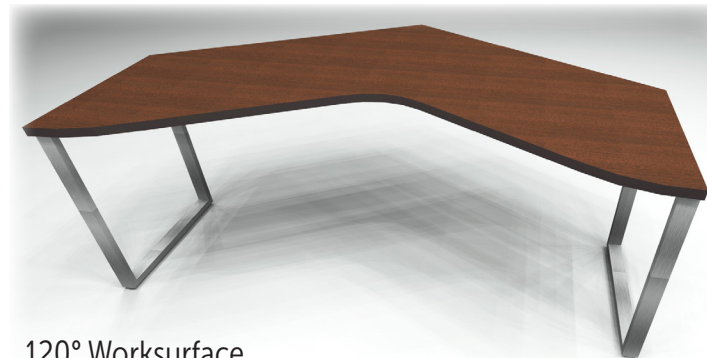

CUSTOM WORKSURFACE CAPABILITIES

At Segmented Systems we have the ability to create a plethora of custom worksurfaces. With the use of our Computer Numerical Control (CNC) technology, we can manufacture almost any shape and size with precision.

Butterfly Worksurface

120° Worksurface

Peanut Worksurface (Salted or Unsalted!)

PRODUCT

FREESTANDING PRIVATE OFFICE

Create your own private office with our freestanding furniture. Our private office's boast upscale design built with solid engineering that will last. Tailor your space using our many finish and layout possibilities.
