

# Download My Call Now—Our Group Text Messaging And Calling App For Receivers

The information sharer is only one element of the two-piece communication puzzle. The information-recipient is an essential partner. If the recipient faces obstacles, the message won't get through. That's why we developed the My Call Now App for message receivers—to remove obstacles.

## Helping Recipients Organize Their Information

Managing many streams of information is an ongoing challenge for message recipients. The My Call Now app provides a solution: It stores all voice, text, and email messages sent via One Call Now in one place for quick, easy reference. This reduces confusion, follow-up calls, no-shows, missed appointments, and non-compliance. Users can forward messages to a calendar, reducing the likelihood of something falling through the cracks. Messages can be passed along to other people, improving the flow of information and increasing attendance at events.
