

An Informative Full-day Seminar:

Part 380 -

Occupational Noise Exposure

1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This seminar is designed to give participants an understanding of the requirements of MIOSHA's Part 380 - Occupational Noise Exposure. Topics covered include: definition of noise, hearing loss and how it can occur, determining when and why to conduct noise monitoring, determining when a Standard Threshold Shift (STS) occurs and when to record it on the 300 log, noise training requirements, noise control technologies, and how to select proper hearing protection. Participants will have "hands-on" opportunities to use noise dosimeters/sound level meters and calibrators and assess noise levels associated with actual noise sources.

Required Class For
Occupational Health
MTI Certificate

Agenda

*We offer a flexible
program agenda
to emphasize the
health & safety
topics you
want most.*

- ▶ Explain the requirements of MIOSHA's Part 380 - Occupational Noise Exposure Standard.
- ▶ Conduct "hands-on" noise monitoring using noise dosimeters w/ actual noise sources.
- ▶ Describe what a Standard Threshold Shift (STS) is and when it must be recorded on MIOSHA Injury and Illness Logs.
- ▶ Determine how to select and use appropriate hearing protection.

The meeting site and parking are accessible. Individuals attending the meeting are requested to refrain from using heavily scented personal care products, in order to enhance accessibility for everyone. People with disabilities requiring additional services (such as materials in alternative format) in order to participate in the meeting should call 517-284-7720 at least 30 days before the program. The Department of Labor and Economic Opportunity (LEO) is an equal opportunity employer/program.

Facilitator

Aaron Gundrum is an Senior Industrial Hygienist with the Consultation Education and Training Division of MIOSHA. Aaron currently provides consultation and training services for the Upper Peninsula and the northern lower counties of Michigan.

Over the past five years, Aaron was the Senior Safety Compliance Officer with the MIOSHA General Industry Division. Before working with the State of Michigan, he was the Corporate Health and Safety Director at a global paper manufacturing corporation. Aaron has worked in various health and safety roles within multiple business sectors over the past 25 years including; petrochemical, pharmaceutical, and automotive industries. Over the course of his career, he has been responsible for regulatory health and safety management, organizational health and safety training, and operational business excellence.

Aaron is a graduate of Michigan Technological University with a Bachelor's of Science degree in Environmental Engineering and a Master's of Science degree in Industrial Health from the University of Michigan.
